First come, first serve basis

Over 50 and under 1,000 employees

Leaver and new starter process

Electronic Staff Record Programme

PAYE References are issued by HMRC and MUST be used

If merging mid financial year and request a new PAYE Ref HMRC will insist it is used – financial penalty implications.

ESR cannot change PAYE reference mid year without leavers and new starters

If you "have to" speak to HMRC ensure you are aware of the impact as the merge will no longer be a feasible option!
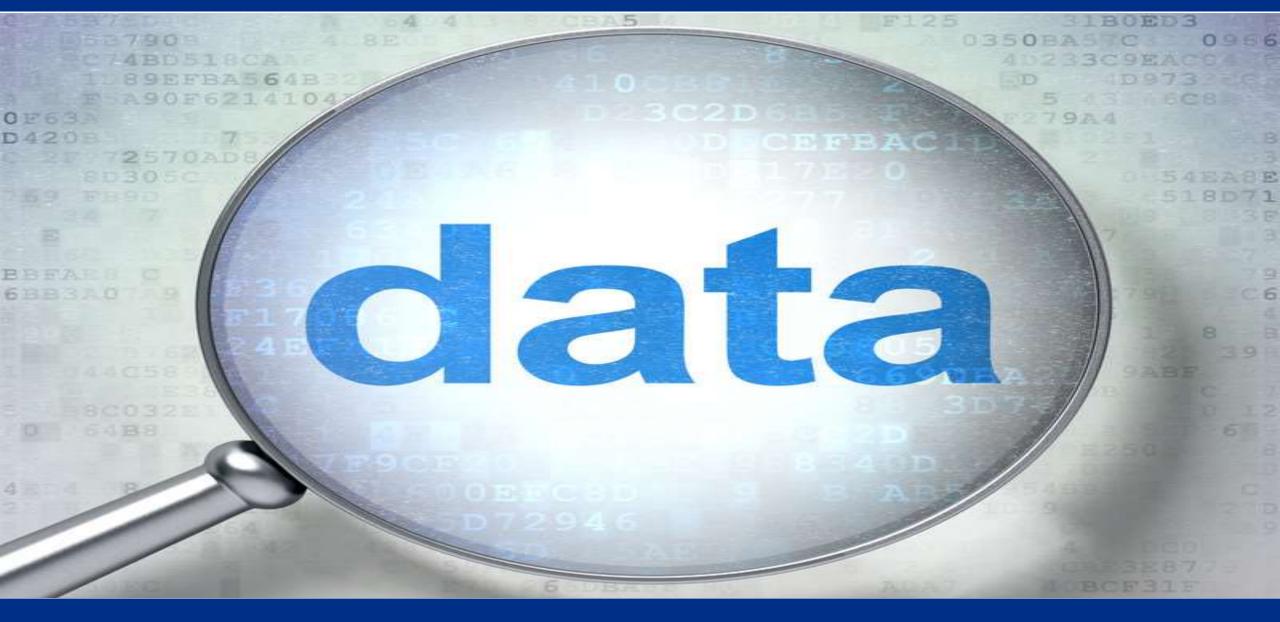

Preferred option is:
Two Trusts merge, and rename the PAYE Reference of the target Trust.

All employees remain on the PAYE reference they are on at the time of merging until 6th April.

6th April ESR provides a solution to send leaver and new starter files at the start of the year, enabling staff to move onto one PAYE Reference.
