

Final Work Plan 2014-2016

Strategic Clinical Networks

**Cheshire & Merseyside
Strategic Clinical Networks**

28.02.2014

CMSCN Vision: To improve the health & wellbeing of our population through collaborative working.

CMSCN Values: Cheshire and Merseyside Strategic Clinical Networks and Senate will work within the values of NHS England. Central to our ambition is to place patients and the public at the heart of everything we do through: clinical leadership, patient & people focus, continuous improvement, accountability & respect.

Strategic Objectives

- Champion equitable access to high quality services supported by evidence & best practice
- Meaningful & effective patient & public involvement in strategic decision making
- Support commissioners to reduce unwarranted variations in service delivery
- Support commissioners & providers to deliver whole system improvement and act as a vehicle to ensure equitable outcomes for the population of Cheshire & Merseyside
- Support commissioners in ensuring best value for money in addition to improving the quality of care and outcomes

Summary Work Plan

Domains	1.Prevent premature death	2. Quality of life for patients with long term conditions	3. Help recover from ill health/injury	4. Ensure positive experience of care	5. Care delivered in a safe environment
Cancer priorities	Improving outcomes for cancer patients: prevention and earlier diagnosis	Improved quality of life for patients living with & beyond cancer		Improved patient experience through high quality, cost effective cancer pathways	Supporting commissioners to reduce variation: through high quality, cost effective cancer pathways high quality cancer care guided by national guidance and best practice
Cardiovascular priorities	Improving outcomes for cardiac & stroke patients: prevention & early detection Reduce morbidity and mortality from Acute Kidney Injury	Improvement in rehabilitation support for cardiac & stroke patients Prevention and management of diabetes related foot problems. Improvements in primary care	Supporting commissioners to reduce variations in in-patient care.	Ensure coordinated services for patients with chronic kidney disease	Supporting commissioners to reduce variation informed by comparative data

Domains	1.Prevent premature death	2. Quality of life for patients with long term conditions	3. Help recover from ill health/injury	4. Ensure positive experience of care	5. Care delivered in a safe environment
End of life priorities		<p>Raise awareness of and enable conversations around death and dying with the public and professionals in health and social care</p> <p>Support and influence the commissioning of high quality cost effective pathways for end of life care</p>		<p>End of life care services designed around the patient enabling them to identify their preferences & wishes at end of life and for those wishes to be met regardless of disease, condition or place of care</p> <p>Patients & those who care for them to have a positive experience at end of life</p> <p>Equitable access to end of life care services guided by best practise, audit research & evaluation</p>	<p>Patients and the people who care for them to be supported by a confident capable workforce</p> <p>Support and influence the commissioning of high quality cost effective pathways for end of life care</p>
Maternity, children & young people priorities	Reducing Still Births	<p>Optimising the management of CYP with long term conditions and their transition to adult services</p> <p>Improving paediatric community services</p>	Reduce avoidable CYP A&E attendances	<p>Improved maternal mental health</p> <p>Reducing pre-term deliveries, optimising management</p> <p>Improved mental health and wellbeing</p>	<p>Optimising the management of acute and chronic conditions in pregnancy</p> <p>Supporting commissioners to reduce variation and improve outcomes in</p>

				of CYP	maternity services
--	--	--	--	--------	--------------------

Domains	1.Prevent premature death	2. Quality of life for patients with long term conditions	3. Help recover from ill health/injury	4. Ensure positive experience of care	5. Care delivered in a safe environment
Mental health, dementia & neurological conditions priorities	To manage acute crisis mental health episodes in a timely responsive manner that meets the needs of service users and their carers and families	To build an integrated depression pathway with service users and their carers that enables them to manage their depression from mild through to suicidal thoughts	<p>Improve management & experience of people with neurological conditions</p> <p>Dementia: To reduce crisis events & avoidable admissions</p>	<p>To work with people with learning disabilities to enable them to access mental health services and have their needs met at the right time, in the right place and the right care</p> <p>Dementia: To deliver timely diagnosis and post diagnostic support in an appropriate setting</p>	To ensure a standardised and transferable programme of education and training for all staff working with patients with dementia, whilst raising awareness of dementia with the general public

Cancer Work Plan

Clinical Lead: Professor Chris Holcombe (Chris.Holcombe@rlbuht.nhs.uk)

Network Manager: Anita Corrigan (anita.corrigan@nhs.net)

Quality Improvement Leads: Kathy Collins (k.collins5@nhs.net) Anna Bass (anna.bass@nhs.net)

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
<i>Domain 1: Preventing people from dying prematurely</i> Improving outcomes for cancer patients: prevention and earlier diagnosis	We will review of current access to diagnostics & development of optimal pathways across the network.	Dec 2015	Streamlined diagnostic pathways resulting in early diagnosis and reduction in emergency presentations.	<i>Improving Outcomes: A Strategy for Cancer (IOSC) (2011)</i>
	We will undertake an analysis of referral rates, emergency presentations, stage of disease at presentation	April 2015	Informed locality, CNG work programmes which support improvements in cancer outcomes	<i>Everyone counts planning for patients 2014/14-2018/2019</i>
	We will continue roll-out of cancer awareness/decision making tools in general practice	2014-16	Metrics measuring improved uptake & cancer diagnosis rates across C&M	Putting Patients First: The NHS England business plan for 2013/14 – 2015/16
	We will work across health economy to raise population awareness of specific signs and symptoms through national & local initiatives	2014-16	Metrics measuring long-term improvements in cancer incidence, mortality and survival rates	<i>DH NHS Outcomes Framework 2014/2015</i>
	We will monitor impact of local pilot CT scan for high risk population of lung cancer & implementation of agreed best practice	April 2015	Local screening coverage rates comparable with national average	<i>NICE (2013) Smoking cessation - acute, maternity and mental health services (PH48)</i>
	We will work with stakeholders to	Sept 2014	Metrics measuring improved smoking quit rates	<i>CRUK/NCIN – UK Cancer Statistics</i> <i>National Cancer Screening Programmes</i>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
	<p>implement targeted intervention plans developed to address incidence, one and five year survival in</p> <ul style="list-style-type: none"> ▪ Ovarian cancer ▪ Head & Neck Cancer <p>We will support MDT's in implementation of smoking cessation guidance</p> <p>We will support commissioners to address variations in screening performance across C&M</p>	<p>Mar 2015</p> <p>2014-16</p>		<p><i>Cancer Waiting Times compliance (2WR referrals v emergency presentations)</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>
<p><i>Domain 5 – Treating and caring for people in a safe environment and protecting them from avoidable harm</i></p> <p>Supporting commissioner's to reduce variation: through high quality, cost effective cancer pathways high quality cancer care guided by national guidance and best practice</p>	<p>We will work with stakeholders to reduce variation through network agreed clinical protocols & national & local clinical audits aligned to best practice including national specifications & quality standards</p> <p>We will support effective clinical network groups actively engaged in driving up quality (including access/recruitment to trials) & addressing clinical variations</p> <p>Data intelligence – network supported use of data and information to push the boundaries of understanding for the whole cancer population (current & future) to inform future commissioning intentions.</p> <p>We will support commissioners & providers in interpretation &</p>	<p>2014-16</p> <p>2014-16</p> <p>2014-16</p> <p>2014-16</p>	<p>Clinical service compliance with IOG, national guidance, peer review quality measures, specialised & generic service specifications</p> <p>Network membership reflective of cancer pathway & work plans in place</p> <p>Informed locality, CNG work programmes to drive long-term improvements in cancer incidence, mortality and survival rates</p> <p>Policy compliance.</p>	<p><i>Improving Outcomes: A Strategy for Cancer (IOSC) (2011)</i></p> <p><i>Everyone counts planning for patients 2014/14-2018/2019</i></p> <p>Putting Patients First: The NHS England business plan for 2013/14 – 2015/16</p> <p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>National Cancer Audit Programmes</i></p> <p><i>Cancer Waiting Times</i></p> <p><i>Cancer Peer Review Programme</i></p>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
	implementation of national guidance in relation to cancer care.			<i>Improving Outcomes Guidance</i> <i>National Service Specifications</i> <i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i>
<i>Domain 4 – Ensuring that people have a positive experience of care</i> Improved patient experience through high quality, cost effective cancer pathways	We will inform service improvement through monitoring of patient experience through cancer peer review programme, national patient experience surveys, friends & family test	2014-16	Year on year improvement in cancer patient experience & outcomes	<i>Improving Outcomes: A Strategy for Cancer (IOSC) (2011)</i> <i>Everyone counts planning for patients 2014/14-2018/2019</i>
	We will work with stakeholders to reduce variations in patient access & waiting times, though network clinically agreed patient pathways	2014-16		Putting Patients First: The NHS England business plan for 2013/14 – 2015/16
	Workforce development - Influence education and training priorities within cancer care to inform LETB and LWECS for C&M	2014-16		<i>DH NHS Outcomes Framework 2014/2015</i>
	We will ensure active patient & public involvement in SCN activities through implementation of SCN Patient and Public Engagement Strategy	April 2015		<i>National patient experience survey results:</i> <ul style="list-style-type: none"> - Cancer - Chemotherapy - Radiotherapy
	We will support commissioners & providers to develop best practice models of physical optimisation peri-treatment.	2014-16		<i>Friends & family test</i> <i>National Cancer Audit Programmes</i>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
				<p><i>Cancer Waiting Times</i></p> <p><i>Cancer Peer Review Programme</i></p> <p><i>CMSCN Patient and Public Engagement Strategy</i></p> <p><i>National Cancer Survivor Initiative</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>
<p><i>Domain 2 – Enhancing quality of life for people with long-term conditions</i></p> <p>Improved quality of life for patients living with & beyond cancer</p>	<p>Improving patient experience and care coordination through network-wide implementation of survivorship 'recovery package' i.e.</p> <ul style="list-style-type: none"> ▪ Holistic Needs Assessments and care planning at key points of the care pathway, ▪ A Treatment Summary completed at the end of each acute treatment phase, sent to patient and GP ▪ A Cancer Care Review completed by GP or practice nurse to discuss the person's needs, and ▪ A patient education and support programme in place to prepare the person for the transition to supported self-management, which 	<p>Dec 2015</p>	<p>Year on year improvement in % of MDT's who have implemented recovery package. Annual target agreed with commissioners.</p> <p>New models of care developed which reflect best practice & demonstrate value for money.</p>	<p><i>Improving Outcomes: A Strategy for Cancer (IOSC) (2011)</i></p> <p><i>Everyone counts planning for patients 2014/14-2018/2019</i></p> <p><i>Putting Patients First: The NHS England business plan for 2013/14 – 2015/16</i></p> <p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>National Cancer Survivor Initiative</i></p> <p><i>Public Health Outcomes Framework England 2013-</i></p>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
	<p>will include advice on healthy lifestyle and physical activity.</p> <p>We will support commissioners & providers to implement self-management programmes i.e. individualised follow-up care as a supported, shared care or complex care model through designing, testing and implementing models of delivery</p> <p>We will work with SCN colleagues to ensure timely equity of access to rehabilitation & psychology service.</p>	<p>2014-16</p> <p>2014-16</p>		<p>2016 (<i>Outcomes 2 & 4</i>)</p>

CVD Work Plan

Clinical Lead: Aftab Ahmad (Diabetes) aftab.ahmad@rlbuht.nhs.uk; Abraham Abraham (Kidney) abraham.abraham@aintree.nhs.uk; Debbie Lowe (Stroke) Deborah.lowe4@nhs.net Raph Perry (Cardiac – Interim) Raphael.perry@lhch.nhs.uk

Network Manager: Anita Corrigan (anita.corrigan@nhs.net)

Quality Improvement Leads: Wendy O'Connor (wendy.oconnor@nhs.net) Michelle Timoney (michelle.timoney@nhs.net)

David McKinlay (d.mckinlay@nhs.net) Louise Vernon (l.vernon@nhs)

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
<p><i>Domain 1: Preventing people from dying prematurely</i></p> <p>Improving outcomes for cardiac & stroke patients: prevention & early detection</p>	<p>We will review current arrhythmia services against NICE AF draft/final guidelines and work with providers and commissioners to address areas of non-compliance</p> <p>We will ensure that all eligible patients have access to anticoagulant therapy supported by high quality responsive local services</p> <p>We will work with stakeholder to implement service for familial hypercholesterolemia based on evidence/best practice</p>	2014-16	<p>Network-wide implementation of 'CaptureStroke' a Data Collection and Care Performance Monitoring System with proven capability to improve stroke care and patient outcomes.</p> <p>Metrics measuring long-term improvements in CVD incidence, mortality and survival rates</p> <p>Supporting data improvements in performance indicators (e.g. SSNAP, SITS, ASI, AQA) to enable regional variation analysis and pathway improvements.</p> <p>FH projected incidence versus referral rates – year on year improvements</p>	<p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>CVD Outcomes Strategy 2013</i></p> <p><i>National Stroke Strategy</i></p> <p><i>Cochrane meta-analysis</i></p> <p><i>Everyone counts planning for patients 2014/14-2018/2019</i></p> <p><i>National Stroke Strategy</i></p> <p><i>RCP SSNAP audit</i></p> <p><i>Everyone counts planning for patients 2014/14-2018/2019</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
<p><i>Domain 2 – Enhancing quality of life for people with long-term conditions</i></p> <p>Cardiac & Stroke: Equitable access to high quality rehabilitation support for cardiac & stroke patients (hospital, ESD services & community)</p>	<p>We will work with providers and commissioners in reviewing stroke care services across the network & addressing variations in practice.</p> <p>We will establish gold standard protocols for 6 month reviews.</p> <p>We will work with providers and commissioners to increase number of eligible CVD patients accessing high quality responsive rehabilitation services.</p>	2014-16	<p>Peer Support Visits – Unit Remedial Action Plans to address deficits.</p> <p>Year on year reductions in length of stay</p> <p>Targeted improvements in access to</p> <ul style="list-style-type: none"> • ESD service (ambition > 40%+) • Post stroke - 6 month reviews (ambition 100%) • cardiac rehabilitation (ambition >65%) for patients admitted with coronary artery disease • cardiac rehabilitation (ambition >33%) for patients admitted following acute heart failure. 	<p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>NICE CG36 AF guideline review</i></p> <p><i>NICE CG71 FH guidelines</i></p> <p><i>NICE QS41 FH Quality Standards</i></p> <p><i>CVD Outcome strategy 2013</i></p> <p><i>National Cardiac Rehab Audit</i></p> <p><i>NICOR 2013</i></p> <p><i>MINAP 2013</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>
<p><i>Domain 2: Enhancing quality of life for people with long-term conditions</i></p> <p>Stroke: Ensuring quality services for stroke patients</p>	<p>We will deliver a collaborative stroke service improvement project with NHS IQ to pilot the use of intermittent pneumatic compression (IPC) sleeves across our stroke services to improve the care and reduce complications after stroke & share/spread findings</p>	2014-15	<p>Reduced DVT rates and reduced (DVT related) mortality in acute stroke patients.</p>	<p>CVD Outcomes Strategy 2013</p> <p><i>Everyone counts planning for patients 2014/14-2018/2019</i> (ambitions 1, 3, 4, 5, 6, 7)</p> <p>National Stroke Strategy</p> <p>RCP SSNAP audit</p>
<p><i>Domain 1: Preventing people from dying prematurely</i></p>	<p>We will benchmark against NICE guidelines and best practice</p>	2014-16	<p>Metrics measuring</p> <ul style="list-style-type: none"> • reduced incidence of acute kidney injury 	<p><i>NCEPOD</i></p> <p><i>NICE CG169</i></p>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
Kidney: Reduce morbidity and mortality from Acute Kidney Injury	<p>We will identify priorities for improvement work</p> <p>We will influence the development of educational programmes</p> <p>We will work with stakeholders to develop commissioning tools to support quality improvement</p>		<ul style="list-style-type: none"> increased patient identification rate reduced length of stay reduced readmissions reduced mortality reduced morbidity reduced unplanned dialysis starts 	<p><i>Everyone counts planning for patients 2014/14-2018/2019</i></p> <p><i>DH NHS Outcomes framework 2014/15</i></p> <p><i>CVD Outcomes Strategy 2013</i></p> <p><i>Kidney Health: Delivering Excellence - A Kidney Health Report October 2013</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>
<p><i>Domain 4 – Ensuring that people have a positive experience of care</i></p> <p>Kidney: ensure coordinated services for patients with chronic kidney disease</p>	<p>We will ensure all eligible patients have access to transplant and develop post-transplant pathways</p> <p>We will ensure standardised, best practice care and offer choice to patients</p> <p>We will review demand and capacity</p> <p>We will empower patients to self-care</p> <p>We will ensure clear pathways, communication and integration - primary and secondary care</p>	2014-16	<p>Metrics measuring</p> <ul style="list-style-type: none"> improved CKD management, demonstrated by data increase in uptake of home therapies increase in eligible patients being offered transplant increase in transplants being performed 	<p><i>Everyone counts planning for patients 2014/15 – 2018/19</i></p> <p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>CVD Outcomes strategy 2013</i></p> <p><i>Kidney Health: Delivering Excellence - A Kidney Health Report October 2013</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
<p><i>Domain 2 – Enhancing quality of life for people with long-term conditions</i></p> <p>Development of an integrated foot care pathway incorporating primary, secondary and community care</p>	<p>We will work with stakeholders to agree a 'good foot care' pathway</p> <p>We will work with commissioners & providers to identify gaps in current service provision & address</p> <p>Develop and agree network wide pathway for foot care</p> <p>Develop detailed service specification to support commissioning</p> <p>Development of data collection tools to support improvements in quality of care</p> <p>Support implementation of network wide pathway for prevention and management of foot problems</p>	2014-15	<p>Development of quality measures and standards for foot care spanning the whole patient journey.</p> <p>Successful uptake of the national foot care audit in 2014</p> <p>Metrics measuring</p> <ul style="list-style-type: none"> • reduction in rate of amputation • improved uptake of foot screening through the 9 care processes • reduction in rate of admission for active foot disease • increase in % people seen by MDT within 24 hours • increase in % people receiving foot risk assessment within 24 hours 	<p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>Everyone counts planning for patients 2014/15 – 2018/19</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>
<p><i>Domain 3: Helping people to recover from episodes of ill health or following injury</i></p> <p>Diabetes: Standardisation of in-patient care.</p>	<p>Agreed dataset to support quality improvement work</p> <p>Develop, agree and implement standardised pathways of care</p> <p>Support region wide implementation</p> <p>Support commissioning decision making using the national service specification</p> <p>Development of network position statement for the use of continuous glucose monitoring</p>	2014-16	<p>Improvements in performance against the key indicators of the National Diabetes Inpatient Audit</p>	<p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>Everyone counts planning for patients 2014/15 – 2018/19</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
<p><i>Domain 2 – Enhancing quality of life for people with long-term conditions</i></p> <p>Diabetes: Improvements in primary care</p>	<p>Identify opportunities to support improvements in primary diabetes care</p> <p>Currently under consideration:</p> <ul style="list-style-type: none"> • 9 care processes • I.T. to support decision making • Utilisation of regional 'diabetes dashboard' and uptake of data sources • Development of a pre-pregnancy pathway • Improving access to mental health service for people with long term conditions 	2014-16	Improvements in performance against the key indicators of the National Diabetes Inpatient Audit	<p><i>DH NHS Outcomes Framework 2014/2015</i></p> <p><i>Everyone counts planning for patients 2014/15 – 2018/19</i></p> <p><i>Public Health Outcomes Framework England 2013-2016 (Outcomes 2 & 4)</i></p>

End of Life Work Plan

Clinical Lead: Professor John Ellershaw (john.ellershaw@mariecurie.org.uk)

Network Manager: Bernadette Hurst (Bernadette.hurst@nhs.net)

Quality Improvement Leads: Kathy Collins (k.collins5@nhs.net) Caroline Flynn (caroline.flynn4@nhs.net)

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
Domain 4 – Ensuring that people have a positive experience of care End of life care services to be designed around the patient enabling them to identify their preferences and wishes at end of life and for those wishes to be met regardless of disease, condition or place of care	Implementation plan for roll out of Electronic Palliative Co-ordinating Systems(EPaCCS)	2014-15	Electronic Palliative Care Co-ordinating Systems (EPaCCS) in place across all geographical areas within the network	<i>National End of Life Care Strategy 2008</i>
	Roll out of the national transforming hospitals route to success programme across all hospitals	2014-15	Metrics measuring introduction of key enablers <ul style="list-style-type: none"> • Number of patients expected to die having an end of life care plan • Having a rapid discharge home to die policy • Use of AMBER care bundle in those patients with uncertain recovery 	<i>NHSIQ Strategic Priorities 2014/15</i>
	Programme to roll out Advance Care Planning (AdCP) and Anticipatory Care Planning (ACP)	2014-15	ONS Death in Usual Place of Residence (DiUPR)reported quarterly by CCG	<i>NHS England Business plan 13/14-15/16 F3 117</i>
			Metrics measuring increased number of AdCP and ACP recorded within CCGs	<i>Leadership Alliance for Care of Dying People (LADP) clinical outcomes</i> <i>NHSIQ Strategic Priorities 2013/14</i> <i>NHS England Business plan 13/14-15/16 D3 62</i>

Carers of people at end of life to have their needs recognised and supported	Carers of patients identified as being in the last year of life to be offered a formal carer assessment	2014-15	Metrics measuring increased number of carer assessments undertaken within CCG	<i>National End of Life Care Strategy 2008</i> <i>NHS England Business plan 13/14-15/16 G3 119</i>
<i>Domain 4 – Ensuring that people have a positive experience of care</i> Patients and those who care for them to have a positive experience at end of life	End of life care programme which encompasses AdCP, ACP, Transform programme, uDNACPR, EPaCCS	2014-15	Year on year increased satisfaction recorded through National VOICES survey for patients being treated with dignity & respect by doctors and nurses in all care settings; having pain controlled and dying in their preferred place of choice	<i>National VOICES survey</i> <i>NHS Outcomes Framework</i>
<i>Domain 2 – Enhancing quality of life for people with long-term conditions</i> Raise awareness of and enable conversations around death and dying with the public and professionals in health and social care	A programme of community engagement to raise awareness of death and dying	2014-15	Informed locality work plans which identify activities to support local community engagement	<i>National End of Life Care Strategy 2008</i>
<i>Domain 4 – Ensuring that people have a positive experience of care</i> Equitable access to end of life care services guided by best practise, audit research and evaluation	Annual programme of audit to update standards and guidelines for use in palliative and end of life care across the network	2014-15	Unit compliance with Edition 5 Standards and Guidelines NICE accredited by March 2015	<i>NHS England Business Plan 13/14-15/16 E3 75</i>
<i>Domain 5 – Treating and caring for people in a safe environment and protecting them from avoidable harm</i> Patients and the people who care for them to be supported by a confident capable workforce	Deliver programme of education in line with MPET priorities	2014-15	Take up rates & participant evaluation education & training programme	<i>Leadership Alliance for Care of Dying People (LADP) clinical outcomes</i> <i>HEE Business Plan</i>
<i>Domain 5 – Treating and caring for people in a safe</i>	Undertake audit in Emergency admissions	2014-15	Year on year reduction in number of emergency	<i>NHS England Business Plan 13/14-15/16 H3</i>

<i>environment and protecting them from avoidable harm</i> Support and influence the commissioning of high quality cost effective pathways for end of life care	Audit Preferred place of choice (PPC) at death		admissions in relation to end of life care issues Year on year reduction in PPC compliance	<i>National End of Life Care Strategy 2008</i>

Senate Plan

Interim Senate Chair: Martin Lombard

Senate Manager: Jan Vaughan

Aims/objectives	Deliverables	Timescale	Measures of success	Strategic context
To establish an inclusive, transparent decision making framework for the Clinical Senate	Senate Assembly, Council and Chair in place	2014	Agreed governance and accountability framework	<i>The Way Forward: Clinical Senates (January 2013)</i>
Strong and effective clinical leadership of the Senate which supports wide clinical engagement and commitment	Delivered through agreed organisational development programme	2014	Senate membership engaged and committed to the programme	
Take on work of the former National Clinical Advisory Trust (NCAT) in association with national lead for Senate development. Must include learning from former processes developed by NCAT and also agreed way forward for Senates to take on this business.	Operational system and process in place	2014	Measured through the ability to respond to the system	
Effective mechanisms in place to ensure meaningful communication with all stakeholders and partners	Develop a communication and stakeholder engagement strategy	2014		

Ensure that patient and public voice is embedded in strategic decision making process	PPI strategy	2014	Measured via PPI self-assessment tool	
---	--------------	------	---------------------------------------	--
