Learners: Supporting their involvement in Enabling Quality Surveillance

19th September 2013 09.00am -12.30pm
Reebok Stadium, Reebok Suite Bolton

Agenda

09.00 am	Registration and Tea & Coffee	All
09.30 am	Welcome and Context	Vicky Macmillan
9.50 am	Workshop 1: Learners contribution and involvement in quality surveillance and reporting	All
	<i>The aim of the workshop will be to identify and agree our shared expectations and principles which should inform how Learners on clinical/work placement might contribute to the aims and processes required to support Quality Surveillance.</i>	
10.30 am	Refreshments	All
10.50 am	Workshop 2: Promoting a common approach and reporting processes for learners	All
	<i>This workshop will have two aspects. The first will be concerned with identifying, agreeing and categorising the type of quality concerns that we would anticipate that Learners would be supported to recognise and report. The second aspect is capturing an outline process and way in which any quality concern is captured and reported. As part of this aspect we will also identify any risks that will need to be considered to ensure that this is a constructive endeavour for all stakeholders.</i>	
11.45 am	Supporting learners confidence and abilities to recognise and report quality concerns	
	<i>This session will consider and guide the focus & design of a Simulation Training Based educational activity that might be used to promote Learners confidence and abilities in recognising and reporting quality concerns.</i>	
12.20 pm	Ensuring ongoing engagement and next steps.	Vicky Macmillan /Mike Farrell
12.30 pm	Close
